The Lavender Project is a queer-led, community-based nonprofit dedicated to increasing access to LGBTQIA+ literature, resources, and affirming spaces—especially for youth and underserved communities in rural areas. Through pop-up libraries, free book distribution, and community events, we work to ensure everyone has access to stories that reflect and support them.

Why This Work Is Needed in Rural Communities Like Scott County, TN

Rural communities often lack access to inclusive libraries and affirming resources.

LGBTQIA2S+ representation in schools and public spaces is limited or nonexistent.

Geographic isolation and transportation barriers reduce access to services.

LGBTQIA+ youth in rural areas face higher levels of isolation and invisibility.

Pop-up and mobile outreach models reduce barriers by bringing resources directly into communities.

Grassroots, local efforts build trust and meet needs that larger institutions often cannot.

The Lavender Project brings affirming literature and community care directly to rural and underserved areas.
